## SP30BT Bluetooth 4.0 Portable Home Audio Speaker

# SP30BT Bluetooth 4.0 Speaker

1. LED On/Off indicator light
2. TF card input
3. AUX 3.5mm input
4. USB charging
5. Power/Mode
6. Prev/Volume down
7. Play/Pause/FM scanning
8. Next/Volume up

## Operation Instructions:

1. **Power on:** Press "M" (5.) for 3 seconds. 2. **Bluetooth:** The SP30BT will automatically connect when the power is turned on or search for Bluetooth devices. When you see IXB-B06 on your mobile device select that to enable Bluetooth. If prompted for a password type "0000" to pair the device. Only one device can be connected at a time. 3. Use the "0" button (7. in the photo above) to pause and play music in approx. 2 secs. 4. **Volume adjust:** Hold down the "<" (6. above) or ">" (8. above) buttons to adjust volume.

5. **Next/Prev:** Tap the "<" (6. above) or ">" (8. above) buttons to select tracks on your device.
6. **TF Card:** Insert TF card into slot to play MP3 files.
7. **FM:** Press "M" (5. above) to switch mode. Then hold the "0" button (7. above) to auto scan for FM stations.
8. **Mode switch:** Tap the mode switch "M" button (5. above) to switch modes of the SP30BT. The mode sequence is BLUETOOTH MODE>TF CARD>FM MODE>AUX MODE.
9. **Recharging:** When the battery charge is low, the speaker will remind you to recharge the speaker. When charging the red light is on. Please use the provided USB cable and USB recharging devices only to recharge the SP30BT. When you use the speaker for the first time please recharge it after full discharge. The first three charges will extend the battery life up to 8 hours.

## Note:

1. The SP30BT is an anti-interference product, but very strong high frequency microwave and magnetic fields will still interfere with the product. Please don't use in such conditions.
2. Bluetooth is a two-way transmission, different users' terminals have different transmission ranges. Please use standard Bluetooth devices.
3. Some phones do not have a fade-in/fade-out function, which may cause a POP sound when paused.
4. The modes are isolated from each other. The SP30BT cannot work in two different modes at the same time.
5. If the speaker will be placed away for a long time, please recharge it once a month to maintain the battery capacity.
